Science Competition
Principals Report

Term 3 has provided us with rich educational and performance experience.

Our Achievements
Congratulations to our year 9 students Paniz Parsfar and Aish Kunwar who have been awarded 3rd place in the State Secondary Dance Robotics Competition. The girls may compete in the Nationals at Queensland University. If they do so we wish them every SUCCESS!

Visiting our school’s hall on Wednesday 27 of August validated our educational purpose. The hall was transformed to an innovation exhibition centre. No matter where I turned my head, I was captivated by our girls’ stance of pride and buzzed faces. An atmosphere of self-confidence and achievement prevailed and was felt by everyone present at this creative event. The quality of the research, experiments and findings were phenomenal. The girls, as scientists, demonstrated their experiments and explained their findings in a professional and detailed manner, irrespective of their audience being an adult or a student.

These experiences continued with the Dance, Drama and Music HSC Performances. The D&T and Textiles projects were inspirational. We are looking forward to our TAS faculty’s “catwalk”. The extension 2 English submissions were not short of imagination and sophistication. Similarly the Visual Art Body of works.

An effective leader is one who provides an environment full of energy and positive reinforcement. Inspires others and encourages them to be their best. Education is about liberating the mind, providing opportunities and encouraging people to take risks. On August 19 the whole school celebrated and welcomed our Student Leaders for 2014/15 during the investiture assembly. We are confident each one of them will make a positive difference.

Congratulations to all staff for making learning relevant and for providing rich learning opportunities to the girls and especially to our senior students. We wish our HSC students the best of luck and we are confident that the commitment and effort they have constantly demonstrated towards their learning will be reflected in their results. It is critical that all year 12 students attend school each day during their next 2 weeks to maximise their outcomes. We also wish year 11 all the best in their end of preliminary course examinations, which will be completed in week 9 of this term.

Curriculum patterns for 2015
The school has begun to plan for 2015 timetable. We have also completed the process of course selection with our Year 8 and 10 students for the elective and course choice for 2015. At this stage, the school is analysing the EOI data from students in order to create a curriculum structure that best reflects and supports the needs of our junior and senior students and the finite number of staff allocated.

Naplan
The 2014 NAPLAN student reports are to be distributed to Year 7 and Year 9 students on Friday 5 September. The 2014 NAPLAN results will be available in SMART for schools to access on Monday 8 September 2014.

School Uniform
AGHS is a uniform school. Every student is expected to wear the correct uniform at all times. In extraordinary circumstances, when this may not possible, students must see their year’s Deputy Principal or Head Teacher Female Students upon arrival, with a note from the parent/caregiver that explains their circumstance. They will then be issued with a ‘variation to uniform’ note for the day. All students must comply with the WH&S footwear policy while attending school.

Student Attendance
The NSW government has determined that parents, caregivers or persons having custody of a child are responsible for the regular attendance of that child at school. All students who are enrolled at school are expected to attend school whenever instruction is provided. Regular attendance at school is essential to assist students to maximise their potential. The encouragement and maintenance of regular and punctual school attendance remains a core responsibility of parents/caregivers, the principal and teachers.

Every time your daughter/ward is absent, whether it is for a full day, part of a day or arriving late to school, you must provide her with a note to justify her absence.
The legal responsibilities of parents/caregivers also states that parents are required to explain in writing their daughter's/ward's absence(s) from school **promptly and within 7 school days**.

In accordance with DEC policy if a student has less than an 85% attendance rate, her ability to demonstrate that she has followed the course requirements and applied herself with diligence to learning activities could be hindered and could lead to the non-completion of a course(s).

**End of Year 12 Celebrations**
All Parents/Caregivers and students have been emailed the week 10 and term 4 calendar of events including the process for each event. Exciting as this may be students are reminded to portray proper conduct and treat the school and wider community with due respect. Improper behaviour may result in action that could ruin a memorable event. I trust the girls will make us proud once again and they will carry our school spirit with pride.

**Father-Daughter Breakfast**
Congratulations to the P&C for a fantastic morning. Thank you to all participants for their support. Well done.

**School contributions**
Our aim is to provide stimulating and enriched learning programs for our students but we can only continue to do so, if the school has your ongoing financial support.

Thank you to everyone who paid their General School and course Contributions for 2014 thus far. Individual School Contribution Sheets have been sent to all year 12 families. The year 11 will be send before the end of this term as year 11 will need to finalise their signing out and HSC pattern of study by week 2 term 4. A reminder letter will be sent to all families for Years 7-10 before the end of term.

Please support your daughter’s/education at Asquith Girls by finalising this payment promptly. Should you wish to discuss your school contributions, please call me before the year 11 and 12 signing out day and before week 3 of term 4 for year 7 to year 10 students.

**Keeping our students safe**
I would like to ask parents/caregivers to not make a U turn in front of the school gates and to observe the 40 Km/h limit during school hours.

You may have seen a story in Sunday’s paper mentioning Asquith Girls High School. I want to assure the school community that AGHS adheres to the NSW Healthy Canteen Strategy and the canteen provides healthy options to our students.

Parents are encouraged to contact me or the relevant Deputy Principal during school hours for any enquiries regarding their daughter's/ward’s education.

I wish you a wonderful spring season

Elizabeth Amvrazis

**Deputy Principal Report**

**General safety announcement**
If you find yourself in an uncomfortable situation whilst on public transport, please report this immediately to the relevant authorities (train guard / station master / or bus company). Please also inform your parents/caregivers and the school.

**Charging mobile phones**
Reminder that no mobile phones or any other devices are to be charged on school grounds. The are potential WHS issues with charging mobile phones as at school (trip hazard and cables are not tested and must be approved by an authorised electrician).

**Lateness to school**
Reminder that warning bell rings at 8:35am – move to class.

The 8:40am bell is start of day and, therefore, start of period 1. If you are later than 8:40am, your teacher has the right to send you to the front office to obtain a late slip.

**Year 12 - 2015 Information Evening**
On Wednesday 8 October, AGHS will be hosting its annual Information Evening for Year 11 students who will be completing the HSC in 2015. An information pack will be sent to all students, parents and caregivers with detailed information about the evening.

Mark Robinson
P & C News

What a brilliant morning we had for our father / daughter breakfast last Friday. We had a terrific turnout, with around 250 people attending to hear some beautiful music courtesy of some of our students, listening to Mark Di Stefano from Buzz Feed Australia who was our guest speaker, ably supported by Matt Kean MP and Mark Robinson DP. The organisation team were simply brilliant, everything ready and in place in a timely manner, with short serving queues, everyone had a great time. Jacqui and Caroline co-ordinated the event very professionally, and many others gave their time both on Thursday afternoon and Friday morning to set up, cook, serve, clean up and pack up, and I thank you all very much for your part in a successful event.

It is bewildering to think that our Year 12 girls are in their third last week of routine attendance at school. Even though they leave formal face to face teaching at the end of this term, the process to concluding their HSC year still has some weeks to go, it is an exciting time nonetheless. To all our Year 12 students, we, the P&C, wish you all the very best for your last few weeks, study, exams, and into the next phase of your life, post – school.

As I mentioned last month, our September P&C meeting is our Annual General Meeting. It is imperative that we get more parents engaged with the P&C. I am in my fourth year now as President, Jonathan is in his third as VP, and we will both finish up in the school this time next year. Your P&C is a vital cog in the gears of a smooth running school, and a necessity in the process of its operation. Although important, it is definitely not onerous, much more laid back, and less hands – on than Primary School P&Cs. You really don’t need much spare time to be able to do any of the positions on the P&C exec, just a willingness to be involved, and know that the small amount of time you give benefits your daughter’s education in many ways, above and beyond what you may imagine. All positions are up for re-appointment, come along and see how you can support your daughters’ school and education.

Our next meeting is Wednesday September 10th, at 7:30pm in the staff common room. We will conduct our AGM, then get on with finding out the goings on of the school, and discussing upcoming events for the P&C, and as always, we would value your contribution to these discussions. Please visit the meetings tab on our web site to find a map to the common room. We look forward to seeing you there.

Michael Ficker P&C President

Science Competition

Each year, students are offered the opportunity to participate in two Science Competitions. These competitions allow students to demonstrate their problem solving and analytical skills as well as their understanding in Science from a range of disciplines. This year we had 34 students participate in the Big Science Competition and 38 students participate in the UNSW Educational Assessment. Congratulations to the following students for their achievements in these competitions.

SRC NEWS

Salvation Army Food Drive

The AGHS student body collected over 650 cans for the Salvation Army – great works girls! David Cooper, from the Hornsby branch, came to the school to collect the boxes of cans and other non-perishable items and was very pleased with all the food he was able to take back – a welcome contribution to the branch’s stocks, which had been severely depleted this winter in an effort to help those in need in the community.

The SRC would like to thank everyone (especially Ms Gough who let us fill her office up with boxes) who helped out, and let the school community know that a similar initiative is planned for Christmas.
**Science Expo**

In preparation for the science expo groups of students gathered together in class time and at home to create an experiment which informed viewers of information from their subject of choice whilst also making it exciting. It was important for the whole group to co-operate. Each person needed a clear understanding and enough enthusiasm to attract viewers. We thank the teachers or all their co-operation and patience as we figured out what we would like to do. Period 3 on the day of the science expo was spent setting up and finishing off our experiment boards and any samples or results we had to show. It was nice to see everyone helping each other with the heavy boards and by Period 5 everyone was finished and the judges came to judge our experiments. We also had a chance to go around and look at everyone else’s experiments before the parents, carers and special guests arrived. The night of the science expo was nothing less than busy - it was hectic! But due to the science teacher’s efforts we managed to get everything under control. There were many exciting experiments, investigations and displays of science on the night. The judges were extremely impressed by all the student’s efforts, time and commitment to making their displays amazing. The parents and visitors were also very impressed. Some of the experiments demonstrated on the night include non-pop bubbles, glow sticks testing, aero-dynamics with paper planes, colour-changing flowers, weathering rock, circuits and many more. There were also edible things like cookies cooked in solar powered ovens, crystal fudge and marshmallows cooked on oil burners. Although not all the contestants received awards up on stage we believe that everyone should be congratulated on their outstanding achievement. Dr Wong from Macquarie University made a speech about his work in chemistry and his amazing career in Science. We would like to thank all the teachers and guest judges for their help with the night and also the community for coming along to the event.

**Zoo Excursion 2014**

On the 6 August, Year 7 went to Taronga Zoo as part of our unit of work “the world of living things”. We left the school at 9am, by bus and arrived at the zoo by 10am.  

7F started out going up to one of the bird walks then to the seal show. During the seal show we learned about the different seals and how we can help to conserve them in the wild.  

After the seal show we had a look around the zoo for about 20 minutes before going to see the bird show. The free flight bird show was amazing, teaching us about the different types of birds and their importance in the environment. Afterwards we went to see some other animal exhibits until it was time for us to leave.  

Overall we had a wonderful day and learned some valuable lessons about the animals at the zoo. Remember: Keep our animals healthy by putting your rubbish in the bin.  

Thanks to all our great Science teachers. By Ellyn Basclair and Kahlia Rae
Musicale 2014

Musicale was held on the 20th August. It was a chance for the Year 12 HSC Music students and Asquith Girls High School’s Music Ensembles combine their musical talents to provide parents, teachers and the Asquith community with a thrilling night of outstanding musical performances.

The night showcased a range of acts from the Concert Band consisting of students in year 7 to 9 who played expertly while conducted by Ms Alex Manton one of the talented music staff at Asquith Girls High School. The Wind Ensemble also was a show stopper with students from year 8 to year 12 showing off their talents; the wind ensemble was also conducted by Ms Alex Manton. The Stage Band, conducted by Mr Joe Manton is made up of students from year 8 to year 12. The Stage Band stole the show with their incredible performance.

The night was also full of exquisite performances from the Junior Choir consisting of year 7 and 8 girls who amazed the crowd with their vocal brilliance while conducted by Ms Kiralee Maxwell and accompanied by Ms Van Breda. The Vocal Ensemble also wowed the crowds with their astounding performances. The vocal group consists of girls from year 9 to year 12 who are conducted by one of the Music teachers at Asquith Girls High School, Miss Grace Dale.

The main highlight of the night though was the Year 12 HSC Music students who performed their performances that they will use in the HSC. The Year 12 performances ranged from vocal talents to flautist geniuses. Musicale was a testimony to not only the incredible and unparalleled talents of the students that participated but also to the Creative Arts Staff who put together the whole performance. Thanks to the parents who support their daughters in the music program at AGHS and to everyone who came to musicale, we hope to see you next year.

By Melanie Cunningham (Year 10)

Talented Development Project

On the 4th and 5th August, Jasmine Khan, of Year 10, took part in her second phase of the TDP program. The TDP program (Talented Development Project) is a vocal project which took place at the Qantas Credit Union Arena in the city. This included many vocalists across the state, and consisted of performance development and mentoring from leading professionals in the industry. She has luckily been invited to the third round of this program, which will take place on the 8th and 9th of September 2014.

By Jasmine Khan (Year 10)

Berowra Woodchop Festival

On the 10th August 2014, Alex Smart, Laura Tierney and Sinead Turton performed at the Berowra Village Woodchop Festival with their band Dale, which also comprised of two other students from neighbouring schools. The band began with Reece Mastin’s ‘Good Night’ followed by ‘Don’t Worry be Happy’ getting the crowd involved. Next, they slowed it down a bit with Kodaline’s cover of Sam Smith’s original ‘Latch’. They brought the beat back with a FUN cover or Passenger’s ‘Holes’. Dale finished their performance with ‘Loud’ by R5.It was an awesome experience for all the girls and they’d like to thank anyone who came and supported them. We would also like to say a very big thank you to the Berowra Apex Club for their generous donation to our school’s band program. We really appreciate this gesture.

You can keep up to date with Dale on their social media sites:

15 Sites and Apps Kids Are Heading to Beyond Facebook

Next-generation apps that let users text, video-chat, shop, and share their pics and videos are attracting teens like catnip.

Kelly Schryver  July 22, 2014

Are teens totally over Facebook? Or are they using it even more than ever? Recent reports go back and forth on teens’ favorite digital hangout, but the fact is that the days of a one-stop shop for all social-networking needs are over. Instead, teens are dividing their attention between an array of apps and tools that let them write, share, video-chat, and even shop for the latest trends.

You don't need to know the ins and outs of every app and site that's "hot" right now (and frankly, if you did, they wouldn't be trendy anymore). But knowing the basics -- what they are, why they're popular, and what problems can crop up when they're not used responsibly -- can make the difference between a positive and a negative experience for your kid.

LEARN TO SAIL COURSE

Have you ever wanted to learn to sail? Here’s your chance!

Hornsby Kuring-gai Sailing Club (PCYC) has been teaching young people to sail for over 45 years on the beautiful Hawkesbury River.

- Open to children (generally 8-13 years) who love being on the water.
- Saturday mornings Sept to Mar

Skills taught

- Water safety
- Capsizing
- Knot tying
- Rigging
- Boat handling
- Sailing dinghys

- Supervision and activities provided by qualified club members.
- Learn about sailing safely.
- Numbers limited.

Interested?

For more information:

- Enquire by emailing the club: hornsbysailing@gmail.com
- Call - 0418251751
Many Thanks to Chris Scaife and the team at Coolibah Building & Design Pty Ltd for becoming our first Sponsor.

Coolibah Building & Design Pty Ltd
Unit 6, 22 Leighton Place, Hornsby NSW 2077
www.coolibahbuilding.com.au

Coolibah Building & Design are a professional North Shore building company, offering premium services within the construction industry. We specialise in home additions and alterations, building and renovations, decks and pergolas, extensions and home improvements in the North Shore area. We have been recently named one of the best North Shore builders.

Thanks also to Paul Kingston (General Manager Schoolwear) and the team at Lowes Hornsby for their continuing support of our School, becoming our second sponsor for the New York CAPA Tour.

Asquith Girls High School uniforms can be purchased at our local Hornsby outlet, and their friendly staff is there to help cater to all our schooling needs.

No smoking at public transport stops and stations

Section 6A of the Smoke-free Environment Act 2000 makes a number of outdoor public places smoke-free.
Smoking is banned at all public transport stops and stations in NSW.
This includes:
- Platforms of passenger railways and light rail stations;
- Bus stops;
- Taxi ranks;
- Ferry wharves and
- Light rail stops.
The ban applies regardless of whether the area is covered or uncovered. The ban also applies to the area where people queue or gather.

Will a person break the law if they are the only one at a public transport stop, such as a bus stop, and they light up?
Yes. A person will be breaking the law if they smoke at a light rail stop, bus stop or taxi rank regardless of whether they are the only person there at the time.
The reason for this is because while a smoker may be the only person at the bus stop when they light up, it is unlikely that they will continue to be the only person there for the time it takes them to smoke their cigarette.

Will a person break the law if they are passing by a public transport stop, such as a bus stop, while smoking?
Yes. The law makes it an offence to pass through a smoke-free area such as a bus stop, light rail stop or taxi rank while smoking.
The intent is to stop people smoking while in a public transport queue or where people gather to wait for public transport.

Will there be signage to indicate where smoking is not permitted?
The diverse range of transport stops makes it difficult to have one law for signage. Because the vast majority of light rail platforms, railway platforms and ferry wharves have a clearly defined area, no signage is required to be displayed. There is generally not a clearly defined area which constitutes a light rail stop, bus stop or taxi rank, so signage is not required to be displayed at public transport stops and taxi ranks across NSW.
The law allows the Ministry of Health to work with Local Councils and other Government departments to develop signage applicable to the different public transport stops. No smoking signage is strongly encouraged to increase awareness of the smoking ban by public transport commuters.

2014 - Asquith Girls HS - developing high achieving young women who are responsible and independent leaders and learners
Go 4 Fun is a free healthy living program for children above a healthy weight. It is a fun and interactive program that helps children aged between 7 & 13 and their families adopt a long-lasting healthy lifestyle. The program focuses on improving:

- Eating habits
- Fitness
- Teamwork
- Overall health

Programs are led by qualified health professionals & take place after school running parallel with school terms. Children & their families become fitter, healthier & happier as they have fun, meet new friends & learn new skills.
